

For context, my code used the below logic to determine support.

1. Retrieve a list of all sentences and sliding bi-sentence windows from the passage.
2. Prune to the top k by computing a soft score equal to  $0.6 * [\text{recall \%}] + 0.3 * [\text{Jaccard floor over the vocab}] + 0.1 * [\% \text{ visible bigrams}]$  and taking the top k scores, for those passages.
3. Run the model. Report S only if both (1) entailment score beats a threshold and (2) entailment beats the max of “neutral” and “contradiction” by a margin m.
4. debug setting that prints the reason for prediction; not beating the entailment threshold, not beating the entailment win gap, or the scores in the case of “S”.

## False Positive Examples

| Category                 | Given Fact                                             | Issue                                                              |

## Category Explanations

- **Semantic Summarization**: The fact is labeled correctly and clearly supported in the passage, but **described/paraphrased differently**. In most cases this results in *false negatives* because when (1) many pieces of text need to be synthesized to prove/disprove or (2) difference in semantics we get low recall/bigram/Jaccard support and predict “NS”.
- **Detail Mismatching**: When proving/disproving hinges on a very small number of words/tokens
- **Poor Fact/Support**: The fact is incorrectly labeled. Also includes the inverse when the support outright doesn’t mention text relating to the fact. In the latter case, external info from a RAG model is needed.

## Discussion

*Terminal log with the facts and related passages are below  
Analyzed 4 examples together for discussion*

### Example 1 – “Itakura has represented at the Under-23 level”

In the passage, “U-20” is mentioned instead of “Under-23”. Support for the fact hinges specifically on this token, and since our model doesn’t perform subword tokenization we get a *close miss* (Per logs we recorded “S” based on entailment=0.55255 > 0.55 AND entailment gap=0.14013 > 0.1)

### Example 3 – “She has worked to promote the elimination of FGM”

In this case the fact hinges on “FGM” and “elimination” in relation to the person. While the noun FGM is used throughout the passage, special attention to “elimination” must be given (i.e., imagine a case where instead of ‘elimination’ the fact used ‘support’ - The label would flip). This case requires a wider summative spread of tokens from the passage to prove/disprove due to the word elimination not appearing in the text and an embedded definition of elimination.

### Example 2 – “She has worked with a number of organizations”

When proving/disproving the fact, sometimes a more summative definition needs to be drawn. Above, entailment depends on how “multiple organizations” is defined. From here, a model would simply perform a “counting” exercise on the number of organizations.

### Example 4 – “Tusa has been involved in various cultural initiatives”

Similarly, in other cases proving/disproving requires both the fact and the support to be compared from a summative perspective. In the above, the concept of “involved in various cultural initiatives” has a vaguer representation, and additionally a vaguer representation in the passage.

|                                    | Support needs attention to few tokens                                 | Support needs to be summarized                                   |
|------------------------------------|-----------------------------------------------------------------------|------------------------------------------------------------------|
| Fact needs attention to few tokens | “ <b>Under-23</b> level”                                              | “She has worked to promote the elimination of FGM”               |
| Fact needs to be summarized        | “She has <b>worked</b> with a <b>number</b> of <b>organizations</b> ” | “Tusa has been involved in <b>various cultural initiatives</b> ” |

The above exemplifies what I’d define “cross-abstractive alignment”, where an accurate model should compress **both** the fact and support to their most salient elements before comparison. Conceptually, entailment can depend on aligning the semantic core meaning, token-by-token meaning, or both when comparing meanings of two sequences.

## Stat Aggregation

|       |       |
|-------|-------|
| TP=92 | FN=20 |
| FP=12 | FN=97 |

The errors were statistically evenly spread across semantic summarization, detail mismatching, and poor fact/support. All false negatives are triggered by entailment being under the entailment threshold, as opposed to the entailment margin being too low. Interestingly, in all false negative cases the predicted entailment was **very** low, as opposed to near the threshold. gap case on its own is harder to hit (something like ent=0.5, neutral=0.46).

False positives are a different story. Here roughly ½ of cases shows high entailment (confident model). These loosely correspond to **detail mismatching** and **incorrect support/fact** facts, which makes sense given the concept that “flipping” one token could sway the prediction greatly. The other ½ of cases loosely follow facts where summarization is needed. This is similarly sensical due to the semantically vague but *similar* nature of the fact and support.

References.

Vincenzo Tusa Vincenzo Tusa (12 July 1920 – 5 March 2009) was an Italian archeologist.

Biography. After studying in Mistretta, Tusa graduated in Literature in Catania in 1944 and became an assistant in Archeology. In 1947. He was hired by the Superintendency of Antiquities in Bologna and two years later he was transferred to Palermo. In 1963 he assumed the post of Superintendent for the BBCC of western Sicily. Tusa promoted excavations in the archaeological sites of Soluntum, Segesta, Selinunte, Motya, Marsala. In the 60's Tusa was the promoter of the "Sicilia Archeologica" magazine. From 1964 to 1991 he was also professor of Punic Antiquities at the Faculty of Letters of the University of Palermo. He was a member of the Accademia dei Lincei in the Moral Sciences class for the Archeology category. His son Sebastiano Tusa, also an archaeologist, was head of the Superintendency for the Sea of the Sicilian Region. His name appears on the list of members of the Masonic lodge P2.

FACT: Jean Daullé was a printmaker.

REASON: "S" -- e=0.678646922115112 > 0.55 AND gap=0.38683298230171204 > 0.1

PASSAGE: ['Jean Daullé Jean Daullé (18 May 1703 – 23 April 1763) was a French engraver.

Biography. He was the son of Jean Daullé, a silversmith, and his wife, Anne née Dennel. At the age of fourteen, he received training from an engraver named Robart, at the priory of Saint-Pierre d'Abbeville. He then went to Paris, and worked at the studios of Robert Hecquet (1693-1775), who was also originally from Picardy. In 1735, his work attracted the attention of the engraver and merchant, Pierre-Jean Mariette, who provided him with professional recommendations. Soon after, he was approached by the painter, Hyacinthe Rigaud, who wanted to make him his official engraver. In 1742, Daullé was received at the Académie Royale de Peinture et de Sculpture, with his presentation, "Hyacinthe Rigaud Painting his Wife", after a work by Rigaud. He was also admitted as a member of the academy in Augsburg. Eventually named "Engraver to the King", he trained the future publisher and print dealer, Pierre-François Basan, as well as the German engraver Jean-Georges Wille. Around 1745, he married Gabrielle-Anne Landry and they had five children. Overwhelmed by his large family, his work suffered.

Work. He engraved several portraits and plates of historical and other subjects, which are chiefly executed with the graver in a clear and firm style, which entitles him to rank with the ablest artists of his time. He marked his works J. D. The following are his principal plates:

Work.: Portraits. - "Catherine, Countess of Feuquières, daughter of Pierre Mignard"; after Mignard. - "Hyacinthe Rigaud, painter"; after Rigaud; engraved for his reception at the Academy in 1742. - "Marguerite de Valois, Countess of Caylus"; after the same. - "Charles Edward Stuart, son of the Pretender". - "Clementina, Princess of Poland, his consort"; after David. - "Madame Favart, in the part of 'Bastienne'; " after Carle van Loo. - "Claude Deshayes Gendron, oculist"; after Rigaud. - "Jean Baptiste Rousseau"; after Aved. - "Jean Mariette, engraver"; after Pesne.

Work.: Subjects after various masters. - "The Magdalen"; after Correggio; for the Dresden Gallery. - "Diogenes with his Lantern"; after Spagnoletto; for the same. - "Quos Ego"; after Rubens. - "The Two Sons of Rubens"; after the same; for the Dresden Gallery. - "Neptune appeasing the Tempest"; after the same. - "Charity with Three Children"; after Albani. - "The Triumph of Venus"; after Boucher. - "Les Amusemens de la Campagne"; after Boucher. - "Latona"; after J. Jouvenet. - "Four Marine subjects"; after Joseph Vernet. - "The Bath of Venus"; after Raoux. - "Two subjects"; after G. Metsu. - "Jupiter and Calisto"; after N. Poussin. - "St. Margaret"; after Correggio. - "Child playing with Cupid"; after Van Dyck. A detailed account of this artist's works is contained in Delignière's 'Catalogue raisonné de l'oeuvre gravé de Jean Daullé d' Abbeville,' 1872, 8vo.

FACT: Itakura has represented Japan at the Under-23 level.

REASON: "S" -- e=0.552550196647644 > 0.55 AND gap=0.14013025164604187 > 0.1

PASSAGE: ['Ko Itakura

Club career. Born in Yokohama, Ko Itakura joined J1 League club Kawasaki Frontale in 2015, with which he won the 2017 Japanese championship. He was loaned to Vegalta Sendai in 2018. In January 2019, he joined Premier League club Manchester City and was immediately loaned to Eredivisie club Groningen, until the summer of 2020. On 24 July 2020, his stay with Groningen was extended with one more year after both clubs agreed. On 19 August 2021, Itakura signed a season-long loan deal with 2. Bundesliga club Schalke 04 with an option to make the move permanent for £5 million. At the end of the season, he was promoted to the

Bundesliga with Schalke, but the club did not activate the option due to financial reasons. On 2 July 2022, he returned to Germany and signed permanently with Bundesliga club Borussia Mönchengladbach on a €5,000,000 transfer fee.

International career. In May 2017, Itakura was called up to the Japan U-20 national team for the 2017 U-20 World Cup. At this tournament, he played 2 matches as defensive midfielder. He was selected for the senior Japan national football team for 2019 Copa América and made his debut on 20 June 2019 in the game against Uruguay, as a starter. In November 2022, he was selected for the 2022 FIFA World Cup Japan National team for the first time. Participated in all group stage matches and became the first Asian team to win first place in an overseas World Cup group league, contributing to advance to the final tournament for two consecutive tournaments. His long ball was the starting point of the come-from-behind goal against Germany. He was also named in the first group stage best eleven by Spain's 'Marca' and Italy's version of 'Sky Sports'. The former named him one of the players to double his value in the World Cup and described him as "the most consistent performance of the entire tournament". On March 28, 2023, he served as captain for the first time in the second match of the second term of Moriyasu Japan against Colombia.

FACT: She has worked with a number of organizations.

REASON: "S" --  $e=0.6451437473297119 > 0.55$  AND  $gap=0.2935892939567566 > 0.1$

PASSAGE: ['<Hibo Wardere Hibo Wardere is a Somali-born campaigner against female genital mutilation (FGM), author, and public speaker. Born in Somalia, she moved to London, England when just a teenager in 1989, as a refugee fleeing the Somali Civil War. She currently resides in Walthamstow, London, where she worked as a mediator and a regular FGM educator for Waltham Forest Borough. Her testimonials and campaigning work have made her one of Britain's most prominent campaigners about FGM and she has appeared in numerous publications, including the "Telegraph", the BBC, and "The Guardian".

Early life. Hibo Wardere was born in Somalia. At the age of six, she was the victim of type 3 FGM, an event she has described as "being engulfed in pain from head to toe". Every day for the next ten years, she sought answers from her mother, but was always denied a response. When Wardere was 16, she finally struck a deal with a relative, who promised to tell her everything about what happened after her wedding night. She was horrified by the revelations, and soon fled to London after the civil war broke out in the 1980s.

Activism. When 'n', ' she arrived in London, Wardere sought treatment for her wounds, but received little support from the NHS. Doctors failed to ask what had happened to her, and only rarely mentioned FGM on her medical files, even when she gave birth to her children. Wardere eventually found the answers she was looking for at the library, where she read about female mutilation in a book. Years later, when she was studying to become a teaching assistant, she opened up about her story in a homework essay. The head of staff read her work and asked her to deliver a speech to 120 teachers, during which some realised that their students might have experienced the same trauma. After reading Wardere's essay, school governor Clare Coghill booked Wardere appointments with other schools in the area. Wardere has worked as a mediator and FGM educator since then, helping young students escape FGM. She also delivers awareness raising sessions to doctors and the Police to assist

in their understanding of FGM. Her testimonies have appeared in numerous publications, including the BBC, the "Guardian" and the "Telegraph". Wardere has advised that as an FGM survivor, she is aware many other women who have undergone the practice feel too ashamed to speak out about their suffering. Wardere is\n', ' quoted as saying "It is a sexual abuse. It brings shame and rips women and girls of their dignity. It should be stopped". Wardere\'s main ambition for the future is to see Female Genital Mutilation eradicated in her lifetime. Her memoir, "Cut", was published in April 2016.</s><s>Personal life. Hibo Wardere lives with her husband Yusuf and their seven children.</s>\n']

PREDICTION: NS -- GOLD: S

FACT: Gerhard Fischer is best known for inventing a metal detector.

REASON: "NS" -- e=0.02288271114230156 <= e threshold=0.55

PASSAGE: [Gerhard Fischer (inventor) Gerhard Julius Richard Fischer later Gerhard Julius Richard Fisher, Gerhard R. Fisher (March 18, 1899 – May 2, 1988) was a U.S. entrepreneur of German descent. He contributed to the development and popularity of the hand held metal detector. Fisher was born in 1899 in Landeshut, Silesia, to Richard Hugo Georg Arthur Fischer, an engineer, and his wife Margaretha Julia Fischer née Job. His mother was from Łódź, where the parents also married. Around 1906, the Fischer family moved to Dresden. After studying electrical engineering at the Dresden University, Fischer emigrated to the U.S. In 1931, he founded Fisher Research Laboratory, Inc. in Palo Alto, where he served as president until his retirement in 1967. While working with aircraft radio detection finders environment-dependent changes became apparent. From the interference by metal, he concluded that the device must also be suitable for detecting metal. Fisher shared the idea with Albert Einstein who correctly predicted the proliferation of hand held metal detector use. In 1937, he patented his metal detector. He died 1988 in Palo Alto.

Biography: Inventions. Although the actual inventor of the hand-held metal detector is disputed, the hand-held metal detector was made in 1925 and was first patented by Dr. Gerhard Fisher in 1931. A metal detector had been invented some forty years earlier (1881) by Alexander Graham Bell for the sole purpose of locating a lead bullet in President James A. Garfield.

Biography: Fisher Research Laboratory. He founded "Fisher Research Laboratory" to develop and market the hand held metal detectors in 1931.

References.

PASSAGE: [Malcolm Hedding Malcolm Hedding (born 1952) is a South African anti-apartheid activist, theologian, evangelical minister, and Executive Director of the International Christian Embassy in Jerusalem (ICEJ).

Biography. Hedding was born in 1952 into a British descent family that had settled in the Eastern Cape region. His father, Guy Usher Hedding, managed a gold mine. Hedding entered the ministry in the early 1970s as a member of the Assemblies of God of Southern Africa. As a young ordained minister with the South African Assemblies of God, Hedding confronted the apartheid system from the pulpit and was forced to flee his homeland. Between 1986 and 1989, Malcolm a pastor of the Jerusalem Christian Assembly. During this period, he also functioned as the Chaplain for the International Christian Embassy in Jerusalem. As a Christian Zionist, Malcolm served from 1991 - 2000 as Chairman of "Christian Action for Israel," a biblical Zionist organization in South Africa. Malcolm Hedding has been involved with the work of the International Christian Embassy Jerusalem (ICEJ) since 1981 and has been executive director since 2000. On 27 May 2011, it was announced that he would be stepping down as executive director as of 31 July 2011.

Views on Israel. Malcolm is currently a Christian Zionist leader based in Jerusalem who is challenging the branding of Israel with the "apartheid" label. Hedding believes the Israeli barrier fence has "nothing to do with apartheid and everything to do with Israel's self-defense". He said that Israel has proven its desire to reach an accommodation with the Palestinians while granting political rights to its own Arab citizens within a liberal democratic system, but that the Palestinians remain committed to Israel's destruction. By contrast, he says, it was a tiny minority in South Africa that held power and once democracy

came, the Nationalist Party that had dominated the masses disappeared. According to Hedding, "Evangelical support for Israel is founded not on a prophecy, but on a promise, [...] It is the promise God made to Abraham that the Jewish people would receive the land of Canaan for the sake of world redemption. The Jewish people became servants of the lord, to bring an understanding of revelation of God and his redemptive purpose to the world. Evangelicals defend their right to live in peace and security in land of Canaan, support that comes out of a sense of gratitude for what we've received." Hedding believes Israel proven its desire to reach'n', "a settlement with the Palestinians, while granting political rights to its Arab citizens within a democratic system. Nevertheless, he says that the Palestinians remain committed to Israel's destruction." PASSAGE: ['Daniel Carvalho Daniel da Silva Carvalho (born 1 March 1983), more commonly known as Daniel Carvalho, is a Brazilian former football attacking midfielder. Career. Career. Club. Carvalho started his career in his native state of Rio Grande do Sul at Sport Club Internacional before transferring to CSKA Moscow. In 2005, he became the first foreign player to be named Russian Footballer of the Year by "Futbol" and "Sport-Express". Carvalho's brilliant play during the 2005 UEFA Cup was the key to success of his team, who won the competition, defeating Sporting Lisbon in the Final. This made CSKA the first Russian club to ever win a UEFA competition. He was Man of the Match in the final as he was involved in all three of CSKA's goals. He scored in the 3–1 UEFA Super Cup lost to then European Champions Liverpool, but despite this defeat, Carvalho had shown he could cope on the European stage. In

November 2007, Carvalho signed a new contract with CSKA until summer 2010, according to CSKA president Yevgeni Giner (or until December 2009, according to CSKA Press Office), with the option of further prolongation and the minimum fee release clause. However, he went on a six-month loan back to SC Internacional in July 2008. Since then he has returned to CSKA and hopes to recapture the form which propelled the Muscovite club to UEFA Cup honours in 2005. On 4 January 2010, Qatari club Al-Arabi Sports Club have signed the Brazilian attacking midfielder from PFC CSKA Moscow. In May 2010, he was signed by Atlético Mineiro, and once again returned to Brazil. In March 2013, Carvalho signed for Criciúma. Carvalho's Criciúma contract was cancelled in October 2013. Carvalho went on to retire from professional football, and join Brazilian futsal side DC Futsal. On 22 April 2015, Carvalho signed for Brazilian side Botafogo.

**Career:**International career. Carvalho was called up for a friendly between Brazil and Norway on 16 August 2006 for the first time. He started the match and scored on his debut, and took part in the following 3–0 defeat of Argentina on 3 September. He also scored in the 4–0 win in an unofficial friendly match against Kuwaiti club Al Kuwait on 7 October, '2006.

**Honours:**Club. PASSAGE: ['<s>Jonathan Haagensen Jonathan Haagensen Cerqueira (born February 23, 1983) is a Brazilian actor, model, and singer.</s><s>Life and career. A resident of the Vidigal community since his birth, he has Norwegian ancestry from his father, who has not seen since he was six years old. "I never knew anything about my father. I only know that he lives in Vitória, the capital city of the state of Espírito Santo," he says. Haagensen appeared in the film "City of God", by Fernando Meireles and Kátia Lund, as did his brother, Phellipe Haagensen, also an actor. He was discovered in the Vidigal's theatrical company "Nós do Morro". He has participated, as a model, in the Fashion Rio event, campaigning for Dolce & Gabbana and worked in promotional events for the NBA. He participated in the reality show "A Fazenda", from TV Record. Haagensen portrayed Dodo in "Da Cor do Pecado" and Cláudio in "Paraíso Tropical". He is also member of the hip hop music group composed of members of "Nós do Morro", 'ro'.</s><s>Filmography (partial).
